

The Wiggle Room, Jr.

For small households generating up to five pounds of food waste a week, we recommend a terrific small-scale lateral flow bin fabricated by local vermicomposter Phil Doerr of The Worm Collective. The Wiggle Room Jr. is perfect for small colonies and we are currently testing it for classroom use.

The Wiggle Room Jr. includes:

- Double-chamber bin with perforated divider
- Two custom-cut bin blankets
- Two bricks to get you off the ground

Cost is \$120 plus tax = \$125.65

The Worm Collective Starter Kit includes the Wiggle Room Jr plus:

- 1/4 pound of worms
- Shredded cardboard & egg flat bedding
- Shredded paper for about 5 feedings

Cost is \$160 plus tax = \$167.54
